Description:

COOKBOOK: GIADAS KITCHEN: NEW ITALIAN FAVORITES

I have earlier acquired and used one of Giada De Laurentiis cookbooks, Everyday Pasta, which was jammed with good pasta recipes. None that I

ever tried turned out to be a dud. So, I took a look at another of her books, *Giadas Kitchen*. Again, this is a fine resource. She begins by speaking to her approach (Page 10): These days, my palate responds most to clean, vibrant, simple flavors, and my eyes can't resist the undeniable freshness of great ingredients and bursts of bright colors. So, presentation of dishes is an element in her selection of recipes for this volume. And, indeed, the pictures of the finished product are mouth-watering and aesthetically appealing! I married into an Italian family, and one of the benefits is my introduction to dishes such as stuffed mushrooms. Giada presents a recipe for Tuscan Mushrooms as an appetizer. Not quite the same as my family recipe, but a filling of red bell peppers, olives, cheese, and scallions spooned into mushroom caps sounds awfully appetizing. A very attractive dish (see the photo on page 79) is simple to make--Asparagus and Zucchini Crudi. A couple zucchinis (shaved) and a bunch of asparagus (trimmed and sliced into small pieces), tossed with a dressing of olive oil, lemon juice, salt and pepper. After tossing, shave some Pecorino Romano cheese and sprinkle over the vegetables. Like I said, both simple AND tasty. Pasta? Take a look at the photo on page 104 and the recipe for Asparagus Lasagna on page 105. Instead of using tomato sauce as the basis for the lasagna, she suggests sun-dried tomatoes. I have not yet made this, but it is on my list to try out in the very near future. I made my first risotto yesterday (featuring mushrooms), and was well pleased with the results (I can't say that every dish I try comes out wonderfully!). The Lemon Risotto presented here is another approach. Arborio rice, chicken broth, lemon juice, shallots, white wine, grated Parmesan cheese etc. One thing that I learned when making my first risotto is also emphasized by de Laurentiis: one must stir pretty much constantly as you add the broth bit by bit to the cooking rice. One nice feature comes at the end of this book--recipes that kids can help out with. The author says that (Page 203): . . . my hope is that these recipes will help kids be more comfortable in the kitchen and give them the confidence to try new foods and to ultimately create their own dishes. To conclude, this is a very nice cookbook, filled with recipes that are (and promise to be) tasty. The recipes are, for the most part, accessible to the amateur chef, not so fancy that you need a sous chef to help out! And the photos are attractive indeed.
